

GAMING SYSTEM CUSTOMER SERVICE TECHNIQUES

ABSTRACT OF THE DISCLOSURE

A gaming system (100) includes gaming locations (102, 104, 106) that each comprise an interactive communication unit (119), including a display 118 visible from the gaming location. A network (126) is arranged to transmit data between the communication units. A touch screen liquid crystal display (118) unrelated to the operation of a gaming machine (102) generates graphics images.
